

When a team logs into the team account, the registration event used to create the rosters and passes is identified.

The screenshot displays a team account dashboard for "Boys U13 Eagles" (GotSoccer TeamID # 386504). The interface includes several sections:

- Update Team Age and More** and **View Team Rankings Page** links at the top right.
- Get the most out of your account** section with a link to "Teams U15 and Older - How to add players to your Roster" and a note about the "Account Merge Tool".
- Event Applications: Accepted** section, which is circled in red. It features a "Registration" entry for "2010-2011 competitive registration" with an "Applied" date of 9/21/2010 3:14:56 PM and links for "Support" and "eTravel: Request".
- Event Applications: Pending** section with a message "No pending applications on file".
- Your Club** section showing "AAA non league club (FL)".
- A **View All Applications & Event History** link at the bottom.

Team managers and coaches can look at a team's roster in the roster tab. There is a view by event box. The first item is the primary roster, this is the team list where registrations start. Not all of the players on the list are on the roster.

You can see 3 players on this team, Mickey is unverified, Minnie is club verified, and Buddy is FYSA verified.

When you look at the roster in the documents section, you will see Buddy and Minnie identified as verified. This is the error that was being explained. The passes are correct, so if the passes say verified then the player is properly verified.
