

When a team logs into the team account, the registration event used to create the rosters and passes is identified.

The screenshot displays a web interface for a team account. At the top left, it identifies the team as "Team - Boys U13 Eagles" with a "GotSoccer TeamID # 386504". Navigation links include "Update Team Age and More" and "View Team Rankings Page". A central section titled "Event Applications: Accepted" is highlighted with a red circle and contains a "Registration" entry for "2010-2011 competitive registration", which was applied on 9/21/2010 at 3:14:56 PM. Below this, a "Event Applications: Pending" section shows "No pending applications on file". A "View All Applications & Event History" link is at the bottom. On the left side, there are promotional messages about adding players to the roster and an account merge tool, along with a "Your Club" section listing "AAA non league club (FL)".

Team managers and coaches can look at a team's roster in the roster tab. There is a view by event box. The first item is the primary roster, this is the team list where registrations start. Not all of the players on the list are on the roster.

You can see 3 players on this team, Mickey is unverified, Minnie is club verified, and Buddy is FYSA verified.

When you look at the roster in the documents section, you will see Buddy and Minnie identified as verified. This is the error that was being explained. The passes are correct, so if the passes say verified then the player is properly verified.
