

FYSA Suspension list

The FYSA main database has many duplicate entries for players and coaches that goes back to the time of paper card registration. In an effort to clean up these duplicates as they are found, one pass number is “suspended” so it can no longer be used. This does not suspend the player or coach, just prohibits the use of that pass number and indicates to use the other pass number.

These duplicates are included in the regular FYSA suspension list, which is not related to red cards or other game disciplinary actions. This list (“Online Suspension Report”) is located in the secure site of the FYSA website under “Reports” and is available for any person with secure site access of “affiliate representative” or higher.

Should anyone have questions regarding a non-duplicate pass number suspension, please contact Barb Newton, FYSA Director of Programs/Services, at bnewton@fysa.com or 407-852-6770.
