

COVID-19 Positive Test Result Policy

Policy for Reporting Positive Test Results:

- All positive test results for players, coaches and team managers should be reported to FYSA.
- Due to HIPAA laws you may not report a person's name or identifying information. Only report the team information for the team(s) in which the individual is associated.
- A separate form must be completed for each individual that tests positive.
- Form should be submitted within 24 hours of positive test result.

Policy for Positive Test Results: Players, Coaches and Team Managers

- Prohibited from returning to any activity until cleared by a doctor or symptom free for at least 72 hours (after completing period of quarantine).
- Must contact the Club immediately and report the positive test.

Policy for Positive Test Results: Team

- If the individual was present for any team activity (Games/ Training) within 3 days of the positive test result (or first sign of symptoms) all members of the team that were present are prohibited from returning to any activity for 10 days (starting on the day the team was in contact with the individual).
- If an additional member of the team begins to show symptoms or has a positive test, the team must quarantine an additional 14 days before they may be permitted to return to activity.
- After 7 days, if no additional members of the team have shown symptoms or have a positive test result, they may resume activity as normal. (The test must occur on day 5 or later)
