

PL YER'S HE LTH

Abuse Reporting and Prevention

Florida Youth Soccer Association (FYSA) is proud to announce a new partnership with Player's Health, the industry leader in risk management and insurance services, assisting sports organizations in creating a best-in-class environment for the health and safety of all youth participants.

What does Player's Health provide to FYSA?

- Youth participants will have the ability to report incidents without fear of retribution, meaning FYSA will have real-time visibility into incidents as they arrive
- FYSA will have a repository for data and filtering capabilities to conduct monthly examinations of potential risks that exist within the organization for bullying, harassment, and grooming behaviors reported
- Additionally, FYSA will leverage the Player's Health platform via:
 - Insurance
 - Claims Management
 - Administrative Dashboard

Player's Health also assists with:

- Reviewing and implementing abuse prevention policies
- Marketing educational and promotional materials
- Enabling organizations to promote youth participant safety with the support of Player's Health
- Players Health will provide FYSA educational materials covering:
 - How to recognize a predator (grooming)
 - Expectations for coach/staff behavior
 - Parental engagement
 - Youth participant-focused education (how to report, signs of misconduct, supporting victims)

PH Protect Application

Player's Health offers a safe and reliable abuse reporting tool available to FYSA. The PH Protect Application was designed

Accessible

to make it easy for youth participants to report any abuse or misconduct inflicted on them or another team member.

Built for FYSA, PH Protect allows members to report abuse at any time, ensuring the incident is documented, protected, and seen by the right people.

Centralized

With PH Protect, FYSA reduces the administrative burden of receiving and organizing abuse reports by tracking and managing everything in one reliable place. Get smart insights, trends, and real-time alerts on misconduct to immediately stop any problems that might arise.

PH Protect is built with the guidance of SafeSport to be compliant with its abuse reporting requirements of waivers, timestamps, processes, and data management.

Safe

Youth participants, coaches, guardians, and volunteers now have a secure way to report abuse, knowing that it will always be kept private.

For additional protection, people can opt to file the report anonymously, while having the confidence that it will always be timestamped, reviewed, and categorized to alert the property authorities.
